SUBJECT: Channel Ventilated Filter Product

I attach a copy of my memorandum to Ed Bailey concerning the legal questions which we intend to discuss at the meeting in Lausanne the last week of this month. I have asked Ed Bailey to coordinate this project from the New York end and he will communicate directly with Dr. David in Zurich and John Bass in London regarding the items covered on the list. I will count on you and Jack Mandaratta to advise Mr. Bass and Dr. David as to any factual information which they may require.

On the product side, I would hope that the operations people in Europe will be able to advise management as to where we stand on the development work and I would appreciate it if you would inform the appropriate people in Switzerland so that the product status can be discussed at the end-of-February meetings. The discussion should include not only the product itself but any complications involved in manufacturing the product.
